At ICG, our mission is to provide premium general contractors with an integration of the industry's top-quality workforce, a large spectrum of trades, and an aggressive pricing structure that rewards our customers for utilizing the multitude of services that we offer.

ICG offers a wide range of quality subcontractors and innovative materials that will allow the General Contractor to streamline production schedules, overlap tasks, and minimize downtime. Internal and external conflicts with sub-contractors are eliminated. Quality defects are minimized. Overhead costs of supervision, administration, training, and payroll are greatly reduced.

Through the combination of a proven management team, top-quality subcontractor base, and volume pricing with key suppliers, ICG has fashioned your "One Stop Shop" in the construction industry. We have eliminated the inferior and undependable subcontractors and integrated a network of skilled and experienced tradesmen from multiple fields.

ICG proposes to supply your company with the materials and labor force to accomplish the build-out of your project. ICG offers the following services:

- Demolition on Remodel Jobs
- Moving and Storage on Remodel Jobs
- Metal/Wood Framing
- Insulation/Sound Proofing
- Drywall/Acoustical Ceilings
- Painting/Wall Coverings

- Flooring (all types)

By utilizing ICG for these aspects of your project, you will reduce your points of contact from 7 to 1. You will gain a group of subcontractors that have a strong working relationship with each other, promoting quality, speed, safety, and most importantly, customer satisfaction. They are accustomed to working together, allowing overlap of each trade's schedules, and producing the respect needed to avoid the destruction of the preceding trade's work. ICG will provide the necessary supervision and scheduling for all trades, minimizing the amount of time and energy required of your field supervisor. Your company will save on unnecessary overhead costs from continuously hiring trade after trade, seeking a good workforce, the collecting and monitoring of numerous insurance certificates and W-9s, dispersing multiple checks, and recovering from the turnover of another company's employees. You will also save the time and energy wasted on subcontractors back charging and finger pointing over the inherent destruction of so many products. ICG will be responsible for the entire finished product.

With far less people to deal with, fewer defects, and reduced overhead, the bottom line will be increased. Therefore, you will have a more streamlined job resulting in a greater customer satisfaction and ultimately more business opportunities for all of us.

ICG will discount the jobs proportionately to the total services contracted on each job. Thus, more dollars will go down to the bottom line.

ICG welcomes the opportunity to demonstrate how our professional, quality oriented team can make your job simpler, enjoyable, and more profitable. Companies and projects that have utilized our program include: FS360 Industrial Contractor, PMG Property Management, Mallory and Evans, Tebarco Mechanicals, Richard Padgham, Capstone Group, Delta Airlines, Coca-Cola, Tractor Supply, First Financial Services, Bank of North Georgia, Westin Hotel, Lockheed Martin, Union County Humane Society, Alpa Construction, and New South Construction.

Allow us the opportunity to bid on your next job and create an ongoing relationship that will benefit both of our organizations for many years to come.
